Bright Blue Software has a upgrade policy for customers who have purchased prior version of certain products. To qualify a school officer must write a letter on school stationary identifying which programs are currently owned by your school. The letter must accompany your purchase order. The upgrade is valid for the Network License and any Additional License Options (ALOs) purchased at the same time. Discount does not apply to hardware, services or ALOs purchased after the initial order.

Upgrade Discount	
30% discount for qualified upgrades	
You qualify for the Upgrade to this program	**If you own ANY of these programs**

Price List 5/1/2009
National Education License Fee (NELF) Prices

Example of Pricing in real school situations
Licensing is based upon MAXIMUM CONCURRENT stations.

How to calculate prices for courseware:

1. Determine the maximum number of concurrent workstations
2. Start with the 10 station license (provides the first 10 licenses)
3. Add ALOs (Additional License Options) to add one additional license at a time

For Example:

      A school with a 20 station lab and 5 computers in each classroom has decided upon a 2nd grade program. There are three 2nd grade classrooms. There are 20 lab computers and 15 classroom computer in 2nd grade rooms that are likely to all be using the 2nd grade program all at one time for a total of 35. To get 35 licenses this school should order the 10 station license plus 25 ALOs.

	10 station	25 station	50 station
Math and More @ 2500+n*120 (each level)	2,500	4,300	7,300
TLC Math @ 3500+n*140 (each level)	3,500	5,600	9,100
Write Along @ 1500+n*85	1,500	2,775	4,900
NOS @ 2000+n*100	2,000	3,500	6,000
Stories and More @ 2500+n*120 (each level)	2,500	4,300	7,300
